## 1. INTRODUCTION

---

### 1.1 Purpose of the Document

This document is intended to inform about relevant files in CSV format generated related with the PTRM application, issued and accepted by Borsa Istanbul.

---

### 1.2 Target Segment

This document is intended for the member representatives, system analyst and programmers who use the reports generated and issued on PTRM application.

---

### 1.3 General Explanations

(\*) mark means that the length of the relevant area is changeable and this number only displays the upper limit value. If the length of the field remains below the maximum size limit, it will not be filled with an other character (space, blank, etc.)

The first two rows in each of the reports below displays column headers in Turkish and English respectively.

All reports are encoded UTF-8 format.

*Readers should be aware that only the original Turkish text has legal force and that this English translation is strictly for reference. Borsa Istanbul cannot undertake any responsibility for its accuracy nor be held liable for any loss or damages arising from or related to its use.*

## 2. BORS İSTANBUL PTRM FILES DATA REPORTING AND ACCEPTANCE FORMATS

### 2.1 Files Issued by Borsa Istanbul

#### 2.1.1 PTRM Utilization Report

| File Name                                                                                                  |                       | Description                                                  |
